They are issued for two main purposes, financing budget deficit or non-budgetary loans, which the government borrowed to support the Financial Institutions Development Fund and to strengthen the stability of financial institution system.</p> <p><b>State Enterprises Domestic Debt</b> encompasses all state enterprises' guaranteed and non-guaranteed borrowings, which excludes state enterprises' liabilities in term of deposits.</p> <p>The state enterprises' outstanding domestic debt data are collected in a gross amount on a cash basis, on which a transaction is recorded when the corresponding receipt or repayment actually takes place. Data are obtained from the Public Debt Management Office (PDMO), the Ministry of Finance and the Deposits and Debt Instruments Department, the BOT.</p> <p>Data is compiled from the changes in the outstanding debt, which would occur only when there are (i) issuance of debt securities, (ii) borrowings, (iii) early redemption of existing debt securities, or (iv) repayment of principles. Therefore, the gross outstanding amount at the end of the previous period plus new borrowings minus gross amount of redemption/ repayment equals the gross outstanding amount at the end of the corresponding period.</p>
