The data are compiled from the dataset group of all offices (including Bangkok International Banking Facility or BIBF).</p> <p>Peer Group Criteria</p> <p>The size of total asset of each Thai commercial bank determines its peer group. The grouping criteria uses “market share” or the percentage proportion of a Thai commercial bank’s total asset against the sum of total assets of all Thai commercial banks. The three peer groups for full branches of foreign banks are the following:</p> <ol style="list-style-type: none"> 1. Large Banks include Thai commercial banks with market share of 10 % or above. 2. Medium Banks include Thai commercial banks with market share of 3 % and less than 10 % 3. Small Banks include Thai commercial banks with market share of less than 3 % <p>When a bank’s market share changes to the extent that current peer grouping does not hold, re-grouping of peer members will take place only after the trend of change persists for at least two consecutive quarters. (Previously released data will not be revised to reflect re-grouping.)</p> <p>Assets and Liabilities</p> <p>Assets refers to total assets (less allowances for revaluation, possible loan loss, impairment , accumulative depreciation; and less deferred income)</p> <ul style="list-style-type: none"> • Cash and deposits Includes cash in hand, cash items in the process of collection, deposits at local and foreign banks • Investments in securities (Net) Refers to total investments comprising capital and debt securities, investments in debtors, less allowances for revaluation and impairment, for short-term or long-term holding.
