Title	Number of employed persons classified by hours worked per week (ISIC Rev.4)
Frequency ,Lag time and Release schedule	Frequency monthly Lag time 2 months Release schedule The last business day of the second month following the reference period
Summary Methodology <ul style="list-style-type: none"> • Analytical Framework, Concepts, Definitions, and Classifications • Scope of the data • Accounting Conventions • Nature of the Basic Data Sources • Compilation Practices 	<p>Number of employed persons classified by hours worked per week reveals the result of the survey conducted and compiled by the National Statistical Office (NSO). Definition of terms used in the survey is as follows:</p> <p>Employed persons is defined as persons with the age of 15 years and over who during the week in which the survey is conducted, either</p> <ol style="list-style-type: none"> 1. worked for at least one hour in exchange for wages/salary, profit, dividend or any other forms of compensation in cash or in kind; or 2. do not work at all or work less than one hour but <ol style="list-style-type: none"> 2.1 receive wage/salary, profit from business enterprise or farm during the period of absence; or 2.2 do not receive wage/salary, profit from business enterprise or farm during the period of absence but would return to work in their permanent job or business. 3. worked for at least one hour without pay in business enterprise or on farm owned or operated by household head or members. <p>Hours worked per week measures the total number of actual hours worked by employed persons during the week prior to the interview date. For multiple job holders actual hours worked should equal the hours worked at all jobs. Zero hour worked refers to employed persons with regular job, however, during the week of the survey are not working for reasons such as holiday or sick leave.</p> <p>The survey is conducted simultaneously for all surveyed units nationwide during the 1st - 12th of each month. Data are collected by NSO officers through interview with head or member of the household units participated in the survey. Data compilation is based on weighted average of sampled data, the details of which appear in the NSO's website (www.nso.go.th) under the topic "Labour Force Survey".</p>
